## Oak Ridge Sample Management Office (SMO)

### Approved Laboratories

---

Approval legend:

Rad – SMO approval for radiochemistry analysis

Non-rad – SMO approval for analyses other than radiochemistry

DOECAP – Continuing audits conducted by the Department of Energy Consolidated Audit Program Utah – State of Utah certification

AIHA – American Industrial Hygiene Association laboratory accreditation

The Oak Ridge SMO approved laboratories listing does not represent endorsement of laboratories on the list, or non-qualification of laboratories not on the list. The above laboratories were found to be acceptable for the awarded work only.

The information above is subject to frequent change, and the user of this information must verify its accuracy. Continued approval of these laboratories by the Oak Ridge SMO is subject to continuing performance review.

SMO approved laboratories participate in the Integrated Performance Indicator Program (IPIP) and performance is monitored continuously. Some of the laboratories listed above may currently be either suspended or on probation, based on performance in the previous quarter. Contact the SMO for current status.
